

Temperature Alarm Cameras

TCS offers no-contact, temperature-detection solutions to screen anyone entering your facilities, while allowing you to respect social distancing guidelines.

Our temperature alarm cameras are:

- Rapid: Detect elevated temperatures very quickly
- Safe: Non-invasive and no direct contact with subject
- Accurate: Provides accurate temperature readings within half a degree

**Detect
Elevated
Temperatures
Quickly.**

Temperature Detection Cameras

Our temperature detection cameras automatically read body temperature in seconds. These cameras can accurately read temperatures of up to 16 targets simultaneously, per second with an accuracy of <0.54 Degrees F. If a temperature above the set limit is detected, the camera will trigger an alarm which can notify a device – such as a smart phone or desktop business phone. The cameras will read temperatures even when subjects are wearing a hood/hat, wearing a mask or carrying a hot beverage. Ideal for entry to healthcare settings, supermarkets, retail shops, factories, transport hubs, office buildings, schools, universities and more. Indoor use only.

- On-board temp-detection algorithm
- One IP address two channels
- Standard Image: 2 Megapixel (1920 x 1080) Resolution
- Thermal Image: Effective pixels 400x300
- Sensitivity 40mK
- Thermal: 8mm Fixed lens, Visible: 2.7-12mm motorized lens
- Accuracy within 0.54 °F (0.3 °C)
- Body detection, up to 16 Targets
- Response Time 30ms
- 17 color control

Camera \$11,999.99

Temperature Detection Tablets

Our temperature-detection terminals provide no-contact body temperature measurement and facial recognition in just seconds with high levels of accuracy. Rapid temperature detection allows you to help prevent virus spread and maintain a healthy environment for your employees, associates, visitors and the general public. There are 3 placement options available: wall mounted, floor stand and tabletop. Floor and table mounts sold separately.

- 8 inch LCD screen
- High-accuracy IR body temperature measurement
- Non-contact body temperature measurement
- Human-sounding voice prompt
- Real-time face mask detection
- Face liveness detection technology distinguishing real faces from non-real face spoof attacks
- Highly accurate face recognition using deep learning algorithm
- Stand-alone device, ready for networking

Camera \$1620.⁰⁰
Floor Mount \$337.⁵⁰
Table Mount \$202.⁵⁰
